Promoting Fictitious Mindwalk's Pump Up Your Proposals Program
By Elizabeth Aaron

Rocket Science Is No Longer Needed for Project Proposals to Succeed

Creatives! Are your project proposals missing the target with your potential clients? Like an unguided skyrocket?

They don't have to.

And you won't need rocket science to turn them into **client success stories**, either.

We get it. Creating awesome designs is your thing.

Proposals aren't.

Especially those needing you to channel your inner Einstein to write—only to get turned down.

But proposals can become your thing—and pay off royally. With our help.

How We Help

With our **Pump Up Your Proposals** program—or **PUYP**—you'll feel:

- **More at ease** with an expert in your corner who really gets you
- **Relieved** finally to know why your proposals weren't working
- **Set for success** with an improved proposal template
- **Clear** about the steps to create an effective proposal
- **Supported** on your first go with the new process
- **More confident** about being profitable. Every month.

Imagine it.

In as little as a day, your attitude about project proposals can go from nail-biting to all smiles.

PUYP makes it easy.

One of our coaches:

- Sits down with you **in person** at your office
- Does a **half-day deep-dive analysis** of your past project proposals
- Shows you how your future proposals can become **client success stories**
- Partners with you on making a **project proposal template that's a page-turner**

- Gives you a **customized checklist** to follow when crafting future proposals
- Works with you one on one on **your next project proposal**

What Clients Say

The specially made tools and hands-on strategies in our **PUYP program** have been shown not only to work. They can **greatly increase the odds for success of future proposals**.

In fact, program participants report **winning up to 32% more projects** from their proposals with our coaching.

Will Richie from Skyrocket Designs says:

“The coaching program was the best money we’ve ever spent. The new proposal template we developed with the Mindwalk coach helped us win five new web design projects and a top price. We probably would not have got those projects otherwise.”

Take the First Step

Say goodbye to proposals you need rocket science to write. Find out how the **Pump Up Your Proposals** program can help change your proposals from missing the target to client success stories.
